

Stream music wirelessly from any device using the latest AptX Bluetooth and apple airplay

Control using Spotify Connect app as remote

200 watts of Class-D amplifier technology for amazing sound reproduction

Easy to set-up and simple to use

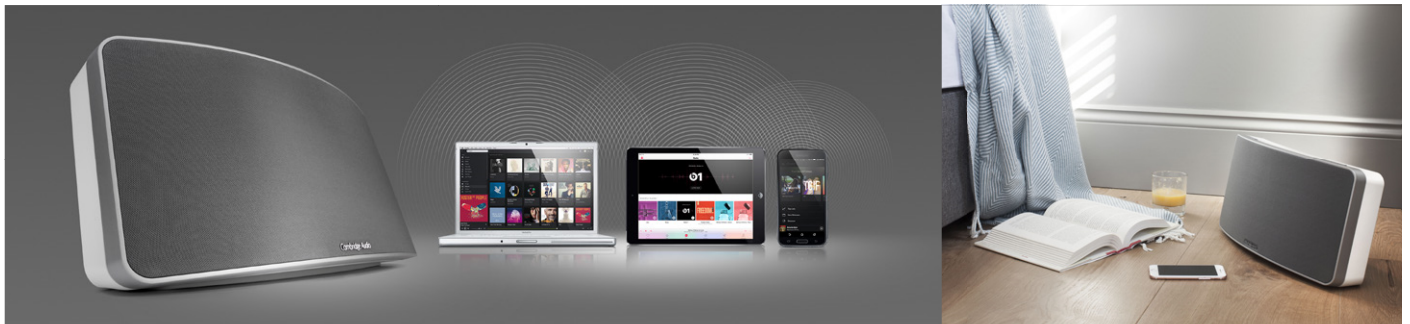

Access 20,000 internet radio stations

Volume, bass and EQ settings for complete control

AIR200

THE PRESS LOVED OUR FIRST VERSION OF THE AIR 200 AND WE'VE JUST MADE IT EVEN BETTER, WITH SPOTIFY CONNECT, IMPROVED SOUND, AND ALL THE FEATURES YOU LOVED FROM OUR FIRST ONE INCLUDING APPLE AIRPLAY, BLUETOOTH AND INTERNET RADIO. ALL YOUR MUSIC, HOWEVER YOU WANT TO PLAY IT, WILL ALWAYS SOUND AMAZING.

Connect to anything

AirPlay – compatible with iPhone, iPad and iTunes. AptX Bluetooth – 10 metre range for effortless streaming and AptX for even more detail and depth, up to CD quality..

Spotify connect

Use Spotify Connect with the Spotify app remote control. Spotify is built-in so you can still take calls or use other apps on your phone and the music never stops.

Music app playback and internet radio

Listen to popular services including Last.fm, Youtube or BBC iPlayer Radio. Just connect by Bluetooth or Airplay. Access to over 20,000 internet radio stations is also made possible from our free Air App where you can set 5 presets on the Air 200's buttons so you can access your favourites without the need for your phone or tablet.

BIG POWERFUL SOUND

The Air 200 offers the ultimate in power, volume and performance; it will pour deep and rich sound into your lounge, kitchen or bedroom effortlessly. The latest signal processing technologies are combined with a built-in subwoofer and a 200W digital amplifier for incredible detail and an unrivalled bass response - it's one of the loudest wireless speakers on the market.

AIR200

Designed for sound, the Cambridge way

Our Air 200 design team at Cambridge Audio has over 45 years' experience in audio innovation and sound, so the 200's design benefits from all this expertise. The rigid exterior is essential for a portable product, but inside an acoustically damped cabinet eliminates vibration and distortion. We've also taken technologies

that we use on our most advanced speakers and incorporated them into the Air 200, such as the BMR® drivers which are found on our £1000 flagship Aeromax 6 floor standers, and a bass port within the carry handle which helps produce heart thumping bass, just like on traditional loudspeakers.

Patented BMR® technology

Wider, room filling sound is possible thanks to our Patented Balanced Mode Radiator (BMR®) speaker drivers. BMR® drivers create sound using 'horizontal vibration modes', meaning the speaker sounds great from wherever you are, unlike conventional wireless speakers which use inferior 'in and out' drivers.

AIR200

Drive units: 2 x 57mm (2.25") Balanced Mode Radiator (BMR) drivers, 1 x 165mm (6.5) subwoofer

Input voltage: 100V – 240V (50/60Hz)

Standby power consumption: <0.5W

Auto Power Down (APD) Adjustable from 23hrs 45minutes to 15 minutes, or OFF

Wi-Fi: IEEE 802.11 b/g

Wi-Fi encryption: WEP, WPA, WPA2

Ethernet: IEEE 802.3, 10 Base-T or 100 Base-T

Dimensions (W x H x D) 450x 220 x 174mm (17.7" x 8.7" x 6.9")

Weight: 5.1Kg (11.2lbs)

AirPlay compatibility: AirPlay works with iPhone, iPad, and iPod touch with iOS 4.3.3 or later, Mac with OS X Mountain Lion, and Mac and PC with iTunes 10.2.2 or later.
